

Do you want to concentrate in Visual & Environmental Studies?

Applications
are due on
Thursday
Oct. 25.
Read the
details
below.

Still from "Heads with hands" by Lily Scherlis '18

What is VES?

The concentration in Visual and Environmental Studies cultivates skills in both the practice and the critical study of the visual arts. Its components include photography, filmmaking, animation, video art, painting, drawing, printmaking and sculpture, as well as film and visual studies, critical theory, and the study of the built environment.

How do I become a concentrator?

There is a quick application process to be a VES concentrator. You will need to have a minimum GPA of 3.0, and you need to have taken at least one VES course, or be in the process of taking one, in your area of focus, (a film/video production course for the film/video production track, a studio arts course for the studio arts track, etc.) at the time of application submission.

When is the application due and where can I find it?

The application is due **on Thursday, October 25 by 5pm**. You can find it on the VES Web site:

http://ves.fas.harvard.edu/files/ves/files/v es_applicationform.pdf

The VES Honors Board reviews applications. You will be notified if your application is successful or not before the College's concentration declaration deadline of *November 8* so that you can plan accordingly.

Pre-concentrator Drop-in Office Hours:

Find out all you need to know about concentrating in VES the week before the application is due.

When: Every day from Thursday, Oct. 18 through Thursday, Oct. 25, 10am-1pm, or by appointment.
